15. How many times per year have you observed or heard of others using the stream for these activities?

16. How many of these times did you observe or hear of children wading or playing in the stream?

17. Do you have additional comments you would like to provide the department regarding this stream?

I think that this creek should not be exposed to harmful bacteria that could harm myself or my family or anyone else that may use this stream. I think it would be harmful to the environment to expose fish or insects or birds or any other part of nature by allowing harmful bacteria in this stream. We already have issues with well water and Chilhowee's water
